# RI Reporting Awards 2015

## Introduction

**The RI Reporting Awards** - now in their third year - showcase excellence in responsible investment and ESG reporting, encouraging best practice and transparency by recognising the highest standards in the disclosure of responsible investment activities by asset owners globally. Public disclosure, accountability and transparency enhance the credibility of responsible investment, leading to higher standards. Using publicly available information, our judging faculty (following pages) looks for reporting best practice in terms of simplicity, relevance, disclosure and process.

There are two categories for Best RI Report 2015 – one for Large Funds with AUM greater than €25bn and the other for Medium & Small Funds with AUM less than €25bn.

The RI Reporting Awards are based on proprietary research of more than 1,000 funds around the world to create a pool of RI reports to which a series of objective indicators are applied to filter the reports into two shortlists of nominated reports. Download the objective indicators at –

The RI Reporting Awards are organised by **Responsible Investor** in association with our research partner the **Responsible Finance Research Charity**.

## Ranking & Judging: (April)

The content of these reports is then analysed and filtered according to our objective indicators to create two long lists of funds, which are nominated for consideration by our judging panel. Each of the judges is then given a copy of all the nominated reports. The judges are asked to rank each category (Large and Medium & Small), including a short comment on each report. The judges then pass their rankings back to the research team who aggregate the scores to create a short list of three commended reports in each category.
